SUMMARY

A National Informatics Olympiad Gold Medalist and a results-driven Web Developer with 3+ years of professional experience building complex systems. I have engineered solutions ranging from a multi-role authentication module (>10 roles) to optimizing queries for large-scale data (>40,000 records). With expertise in Laravel, Vue.js, and MySQL, I am currently pursuing an Information Systems degree to build a robust theoretical foundation for my extensive practical skills.

SKILLS

Languages: PHP, JavaScript, SQL

Frameworks & Libraries: Laravel, Livewire, Vue.js, Tailwind CSS, CodeIgniter, JQuery, Bootstrap, SCSS

Databases: MySQL, SQLite

Tools & Platforms: Git, GitHub, Postman, Figma, Notion, Trello

WORK EXPERIENCES

Instructur Web Programming   Contract
SMK Negeri 1 Surabaya   *Oct 2024 – Nov 2024*

- Led an intensive programming course for 14 vocational students, achieving a **100%** project completion rate where all participants built a final working prototype
- Developed the end-to-end curriculum and delivered hands-on instruction covering a full-stack pathway from front-end (HTML/CSS) to back-end (PHP/MySQL)

Full-Stack Web Developer   Contract
PT. Graha Mutu Persada   *Feb 2024 – Oct 2024*

- Engineered the core backend architecture for a CRM system, including a robust authentication module for **>10 user roles** (Laravel Spatie) and optimized SQL queries to manage over **40,000 data records**
- Designed and developed dynamic, data-intensive dashboards using **Chart.js and Yajra Datatables**, capable of efficiently handling and visualizing **10,000-20,000 records** per view
- Implemented a critical import/export feature using Excel, enabling seamless bulk data operations for clients and significantly improving workflow efficiency

Student Mentor LKS (Web Technology)   Contract
SMK Negeri 1 Surabaya   *Nov 2023 – Apr 2024*

- Successfully mentored a student to achieve **1st Place** in the Provincial LKS competition and **2nd Place** in the National LKS competition for Web Technology
- Designed and delivered a comprehensive training program, including project-based assessments and hands-on technical sessions covering modern full-stack development
- Provided intensive 1-on-1 coaching on competition strategy and professional workflows to maximize student performance and confidence

Full-Stack Web Developer   Part-Time
PT. Inosoft Trans Sistem   *Apr 2022 – Sep 2023*

- Engineered and built multiple dynamic survey systems using **CodeIgniter 3 and JavaScript** to support critical business processes, including market research for Indofood CBP and internal recruitment programs

- Designed and implemented a custom reporting feature with 'Import/Export to Excel' functionality, successfully managing and summarizing datasets of over **3,000 client records** for comprehensive sales analysis
- Acted as a key developer across various client projects, responsible for implementing new features, resolving technical bugs, and ensuring data integrity within different codebases

Web Developer Intern   **Internship**
PT. Inosoft Trans Sistem   *Oct 2021 – Apr 2022*
- Developed customizable data management modules for a multi-tenant platform, implementing features like advanced filtering and data exporting to serve enterprise clients
- Delivered tailored reporting and dashboard solutions for major clients including **Glico Indonesia, Indolakto, and Indofood CBP**, providing each with unique capabilities based on their specific business requirements

CERTIFICATIONS

Software Engineering Competency Skill KKNI Level II - BNSP   *Valid until May 2026*
Issued on May 2023, 62010 3514 2 0007302 2023, [Media]

AWARDS

Coding Competition SurabayaDev Anniversary 10th - Offline   *May 2024*
2nd winner of coding competition at Untag Surabaya [Media].

Hardiknas Olympiad GYPEM 2023 - Online   *May 2023*
1st Winner of National Level for Informatics Subject among 218 participants *[Media]*

Student Competency Competition (LKS) SMK East Java Province - Offline   *May 2023*
2nd place out of 45 participants in Web Technologies [Media] [Documentation]

Student Competency Competition (LKS) SMK Surabaya City - Offline   *Mar 2023*
1st place in Web Technologies [Media]

EDUCATION

Universitas Pembangunan Nasional "Veteran" Jawa Timur   *Aug 2023 - Present*
Undergraduate Information Systems. GPA 3.85/4.0 [Transcript]
- Relevant Coursework: Web Programming, Mobile Programming, Database Systems, IS Analysis & Design, HCI, Project Management

SMK Negeri 1 Surabaya   *Jul 2020 - Jun 2023*
High School Diploma, Software Engineering. GPA 83
- Rank 6 students eligible for Computer Engineering and Informatics Major.
